

WESTWOOD
COUNTRY CLUB

August 4, 2025

Dear Westwood Members,

As Westwood Country Club approaches its 70th anniversary, we are incredibly proud of our lively community and the increasing enjoyment everyone experiences at our club. With more families using our facilities than ever before, we recognize the need to update and enhance our spaces to meet members' evolving needs and preferences.

To that end, we are excited to share our plans for a refresh of our main dining room and the adjacent second-floor spaces. We aim to create welcoming areas that improve members' daily club experience, enhance your food and beverage options, and make room for even more memorable events at our club.

The capital improvement project directly responds to member feedback, as upgrading our dining facilities has been one of the top requests. Westwood's food and beverage consultant, MML, and their design partner, LMD, will lead the design for the project, continuing its exclusive partnership with our club to elevate the overall dining experience.

The project's design phase will continue until December 15. We're excited to share the following opportunities for member input:

Membership Survey

This is an initial opportunity for members to share their input. The survey will be sent out on Thursday, August 7, via Westwood's weekly e-blast and will be open for responses until **August 21**. We hope to achieve full member participation, so please watch for the survey link in this week's email.

Westwood Town Hall

In early September, we will hold a Town Hall meeting to collect more member feedback and share further details about the dining room project and timeline.

Focus Groups

Based on completed surveys, we will select a group of members at random to participate in small focus groups about the dining room design concepts. The focus groups will be held in late September or early October.

After completing the project's design phase, we will move into procurement from early January to late May. We plan to begin construction on June 1 and complete the project by October 1. This will allow us to welcome members to the upgraded dining facilities, where they can enjoy the new space throughout the holiday season.

Westwood's board and leadership teams will evaluate various financing options for the project's construction, including loans or other funding methods. We are dedicated to transparently sharing our financial plans with members as we progress with this exciting project.

We are grateful for your continued support as we work together to improve the daily experience for every member.

Sincerely,

Westwood Country Club Board of Directors
